# HOW TO ORDER FASTURN® LABELS

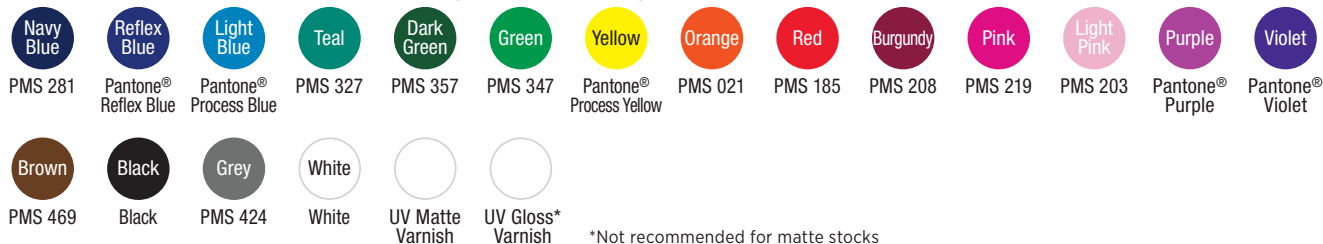

## 1. Select shape and size

Choose from hundreds of stock sizes marked FasTurn® throughout the catalog.

## 2. Select ink color(s)

**Standard Inks** Price includes one ink; PMS inks \$50.00 (V) each. Additional ink(s) charge on price grids.

For clear stocks, white back-up is recommended; price as an additional ink.

**Process Color** Process Color, also called 4-Color Process, 4CP, or Full Color Printing, uses Cyan, Magenta, Yellow and Black, or CMYK. The amount of each color is added or subtracted to produce a wide range of colors.

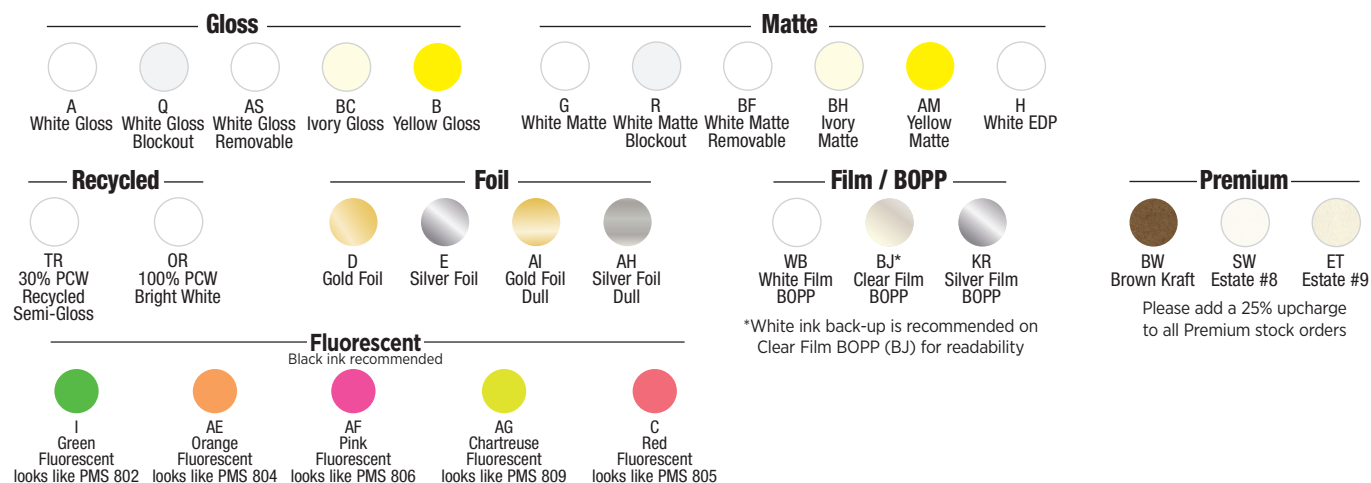

**Foil Stamping and/or Embossing** please see pages 16 - 17

### PLEASE NOTE

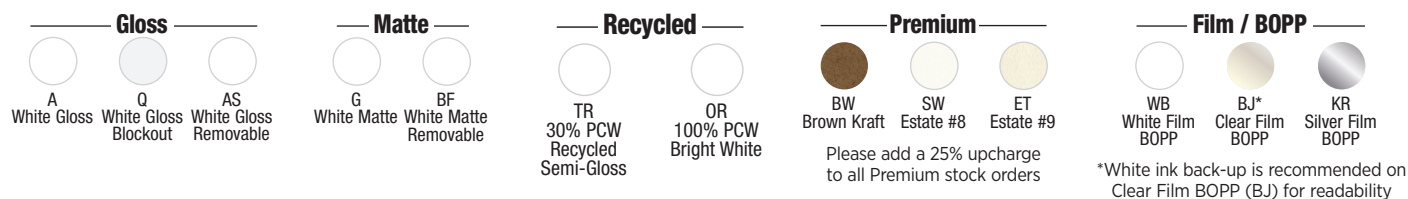

- The PMS ink colors are approximate and are listed for reference only.
- Process Color labels will use a close CMYK representation of these inks.
- If color is critical, Pantone® color matches are available for \$50(V) per ink.

## 3. Select stock

### FasTurn® 1 Color Stocks

### FasTurn® Process Color Stocks

Unique stocks required for specific applications will be shown on each product page.

### Did you know?

- You can request a sample swatch of a specific stock.
- Metallic ink is available. Price as a PMS ink at \$50 (V).
- You can create your own stock color by using a flood coat of any ink color you choose.

# FASTURN® SQUARE CUT LABELS

## Shop by Shape

Square Cut Labels allow you to create labels with square corners to match the exact dimensions you need, up to almost 30 square inches.

2" x 6" - White Matte (G) - Process Color

1" x 4 1/4" - Brown Kraft (BW) - Black Ink

## About FasTurn® Square Cut Labels

Material Options	See page 2	Production Time	2 days
1-3 Color Options	Price grid includes one standard ink shown on page 2. For each additional ink, see charge in price grid. UV varnish is available, price as an additional ink. For PMS match, add additional \$50 (V) per PMS ink.	Adhesive	Permanent except for AS and BF (which may become permanent over time).
Process Color	Includes FREE UV varnish for protection against scratching and light moisture.	Application	Indoor use
Standard Features	Labels are finished on rolls. Artwork and copy should be 1/8" from all edges.	Individual Cut Labels	Additional charge \$37 (V) per order. Minimum size is 2" x 2".
Additional Options	If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply. Individual labels are finished with back slit. Bend and peel available if requested.	Bleed Available	Call for quote.

## FasTurn® Square Cut Label Sizes

To calculate square inches, multiply label width by height. Minimum size square cut label is 0.25" x 0.625" (Width must be a minimum of 0.625").

## 1 Color FasTurn® Square Cut Label Pricing

Additional ink charges at bottom of price grid.

Provide print-ready file (EPS, PDF); sized to chosen label.

To ensure FasTurn®, please submit print-ready artwork by 2pm CT.

Process Color inks are not fade-resistant.

These labels use the high shine of a metallic stock and semi-translucent inks to transform stock colors into a rainbow of vibrant metallic colors. Add metallic shimmer and shine to maximize your design and allow elements on the label to pop!

1 1/2" x 3" Die 148 - Silver Film BOPP (KR) - Process Color

2" Die 440 - Silver Film BOPP (KR) - Process Color + White Ink

## About FasTurn® Metallic Digital Labels

### Material Options

Silver Film BOPP (KR)

### Production Time

2 days

### Process Color

Metallic digital labels are available in process color. See price grid below.

### Adhesive

Permanent

### Standard Features

Labels are finished on rolls. Rectangle and square labels have rounded corners with a 0.125" (1/8") radius. Labels are laminated for extra protection and durability. Gloss is standard and provides the high shine look of traditional foil. Matte lamination is available if requested.

### Application

Indoor use

### Individual Cut Labels

Look for ✂  
Additional charge \$37 (V) per order.  
Minimum size is 2" x 2".

### Additional Options

If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.

### Bleed Available

Yes

Maximum of 2 Foils or 1 Foil/1 Emboss Combination.

# FOIL STAMPED AND/OR EMBOSSED LABELS

Shop by Finish

Foil stamping is the process of imprinting using foil, a die and pressure. This creates a metallic-colored impression that shimmers and shines and captures the eye. Embossing involves pressing an image into paper so it is raised above the paper's surface. This raised, or embossed image subtly stands out on the paper stock and although ink or foil is not involved, it adds distinction into the design. Ink and cold foil combinations are available.

1 1/2" x 2" Die 301 - Silver Foil Dull (AH) - Embossed

3" Die 459 - Black Gloss (O) - Gold Foil/Embossed Combo

## About Foil Stamped and/or Embossed Labels

Create an impactful design with the HP Mosaic technique.

Leverage the HP SmartStream Mosaic software to create one-of-a-kind labels that cause shelf disruption and promote individual customer experiences. Our software takes an original image and crops, enlarges, rotates, scales and moves art file(s) to create randomized outputs for a 100% unique label every time.

Provide your customers the opportunity to rise above their competition by producing an attractive, one-of-a-kind, unique label that will cause visual attraction and get their brand and products noticed every time. You provide the creativity and this sophisticated software will do the rest. This innovative software really shines when your art file is colorful and complex, the more detail provided, the more custom and unique each label will turn out.

Once you submit your vector artwork for the label, the Mosaic process will keep the integrity of the base design elements chosen by you and then crop, enlarge, rotate, scale and move the art file around to create your one-of-a-kind, unique individual label every time.

## Make an Impact. Stand above the rest. Impress your customers.

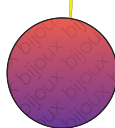

Utilizing the unique process of Color-Logic® you can create eye-catching dimensional effects for a truly spectacular look. The Color-Logic Process Metallic System™ uses CMYK plus white or silver inks that allows printers to create up to 250 different metallic colors in a single print run along with different effects, such as, gradients, watermarks and dimension. It's economical. This system allows you to have a unique looking label printed without the expensive costs and restrictions associated with foils.

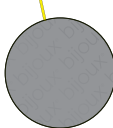

With the Color-Logic palette, the designer has the power to create virtually an unlimited array of metallic colors and special effects with just a single mouse click. This enhanced full color printing provides the appeal and appearance of foil for a fraction of the cost.

### About Color-Logic Labels

**Watermark-FX™**  
This effect can be used to make a selected artwork area seem to vanish and reappear, or produce a subtle watermark or security effect.

**Watermark-FX™ PLUS**  
Watermark-FX™ PLUS is a first line of defense against counterfeiting! Add subliminal patterns, wording, even complex guilloches to artwork.

**Dimensional-FX™**  
Dimensional-FX™ makes a selected artwork area appear to change color and dimension, from a lighter to a darker hue as light reflects from the design.

**Gradation-FX™**  
A unique feature of the Color-Logic System is the ability to vignette one metallic color into another, or even vignette metallic hues into process colors.

3" Die 459 - White Matte (G) - Process Color

2" x 4" Die 127 - Clear Film (BJ) - SuperNova White Ink (opaque - call for pricing)

1 1/2" x 3" Die 148 - Clear Film (BJ) - Process Color

2" x 4" Die 127 - White Gloss (A) - Process Color

For a uniquely shaped Prime label, see our freeform™ labels on page 37.

Prime labels act as an advertisement and are the primary label on your product or package. Vibrant eye-catching designs, embellishments and decoration help showcase your brand. Creating an attractive prime label increases awareness and helps entice customers to buy your product.

## About FasTurn® Prime Labels

<b>Material Options</b>	See page 2	<b>Production Time</b>	2 days
<b>1-3 Color Options</b>	Price grid includes one standard ink shown on page 2. For each additional ink, see charge in price grid. UV varnish is available, price as an additional ink. For PMS match, add additional \$50 (V) per PMS ink.	<b>Adhesive</b>	Permanent except for AS and BF (which may become permanent over time).
<b>Process Color</b>	Includes FREE UV varnish for protection against scratching and light moisture.	<b>Application</b>	Indoor use
<b>Standard Features</b>	Labels are finished on rolls. Rectangle and square labels have rounded corners with a 0.125" (1/8") radius.	<b>Individual Cut Labels</b>	Look for  Additional charge \$37 (V) per order. Minimum size is 2" x 2".
<b>Additional Options</b>	If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.	<b>Bleed Available</b>	Yes

3 3/4" x 8 3/4" Die 11220 - White Film BOPP (WB) - Process Color

Attractive labels sell beer! A quality, eye-catching label plays a large role in establishing market share for craft brewers. Tell a story, introduce the inspiration and the tasting notes of the beer, all while bringing awareness to your brand. Low minimums are great for seasonal, small batches and small releases. Use consecutive numbering for limited editions and small batches (see page 58). Clear, white, and silver film BOPP stocks give a similar appearance to direct print but with lower quantities and greater flexibility.

## About FasTurn® Beer Labels

<b>Material Options</b>	See Below		
<b>1-3 Color Options</b>	Price grid includes one standard ink shown on page 2. For each additional ink, see charge in price grid. UV varnish is available, price as an additional ink. For PMS match, add additional \$50 (V) per PMS ink.	<b>Production Time</b>	2 days

4 1/8" x 6 1/4" freeform™ - White Gloss (A) - Black and PMS 2454

Wine consumers often base their purchasing decision on the design and look of an enticing label. It tells the brand's story, sets expectations for the quality of the wine, and consumers will remember the visual aspect of the label when they return to purchase again. Wine label design trends include: 1) Minimal—1-2 colors, simple shapes or graphics, limited copy; White Matte or Estate #8 Stock, 2) Modern—Bold images and illustrations with contemporary fonts; Estate #8 stock, process color, 3) Classic—Illustration of winery, script fonts; Estate #9 stock, process color.

## About FasTurn® Wine Labels

<b>Material Options</b>	See below	<b>Production Time</b>	2 days
<b>1-3 Color Options</b>	Price includes one standard ink shown on page 2. For each additional ink, see charge in price grid. UV Varnish available on 1-color, price as an additional ink. PMS match or additional ink charges shown on price grid.	<b>Adhesive</b>	Permanent

Process Color inks are not fade-resistant.

## Did you know?

You can learn a lot from the label on the front of a wine bottle. It usually includes:

1. Country and/or region. The region may signify the quality of the wine.
2. Brand or Producer. This could be a family, a business, or an individual wine maker.
3. Variety of grape or blend, like chardonnay, pinot noir, or sauvignon blanc.
4. Vintage. The year the grapes were harvested and the wine was produced.
5. Alcohol level. ABV (Alcohol by Volume) is usually in fine print at the bottom of the label.
6. Sulfites. By law, it must be disclosed on the label if more than 10 mg/liter of sulfites are used.

Use the back label to include a colorful description of the wine, include a UPC Code, QR Code, recycling icon, company website, and government warning.

# FASTURN® WATER BOTTLE LABELS

3" x 8 ¾" Die 1478 - White Gloss (A) - Process Color

2 ½" x 8" Die 1396 - White Gloss (A) - Process Color

2" x 8" Die 1395 - White Film BOPP (WB) - Process color

1 ¾" x 8 ¾" Die 1394 - White Film BOPP (WB) - Process Color

2 ¾" x 9" Die 1397 - White Film BOPP (WB) - Process Color

These water bottles are all 16.9 oz. but have very different shapes and contours. Make sure to measure the available label area on your specific bottle.

Personalize your water bottle labels for your next event. White Film BOPP is recommended if you plan to place bottles in ice. Water bottles are not included. If your label will overlap, make sure to keep important images and words away from the edges of the label. Commonly used by realtors, associations, non-profits and to celebrate birthdays, baby showers, graduations and weddings.

## About FasTurn® Water Bottle Labels

### Material Options

White Gloss (A)

White Film BOPP (WB)

### Production Time

2 days

### 1-3 Color Options

Price grid includes one standard ink shown on page 2.  
For each additional ink, see charge in price grid.  
UV varnish is available, price as an additional ink.  
For PMS match, add additional \$50 (V) per PMS ink.

### Adhesive

Permanent

### Process Color

Includes FREE UV varnish for protection against scratching and light moisture.

### Application

Indoor Use

### Standard Features

Water Bottle Labels are finished on rolls with square corners for a clean fit.

### Individual Cut Labels

Look for Additional charge \$37 (V) per order. Minimum size is 2" x 2".

### Additional Options

If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.

### Bleed Available

Yes

## FasTurn® Water Bottle Label Sizes

Depending on bottle shape and size, we offer the following suggestions. PLEASE measure your purchased water bottles for the closest listed label size.

Bottle Size	Shape	Die #	Label Size
16.9 oz.	Rectangle	1394	1 3/4" x 8 1/4"
8 oz.   12 oz.   16.9 oz.	Rectangle	1395	2" x 8"
8 oz.	Rectangle	1396	2 1/2" x 8"
20 oz.	Rectangle	1397	2 3/8" x 9"
20 oz.	Rectangle	1478	3" x 8 3/4"

Looking for a unique size or shape?  
See pages 37 for our freeform™ laser cut labels.

# BUMPER STICKERS

5" Die 468 - White Polyolefin Removable (JR) - PMS 281, and Sunscreen Lamination  
4" x 6" Die 358 - White Polyolefin (J) - Process Color, and Sunscreen Lamination

4" x 6" Die 1313 - White Polyolefin (J) - Process Color, Clear Lamination

4" x 6" Die 1313 - White Polyolefin (J) - Process Color, and Sunscreen Lamination

5" Die 468 - White Polyolefin Removable (JR) - Process Color, and Sunscreen Lamination  
3" x 11 3/4" Die 1226 - White Polyolefin (J) - PMS 208, and Sunscreen Lamination  
4" x 6" Die 358 - White Polyolefin (J) - Black Ink, and Clear Lamination

Use a bumper sticker to reach a wide audience. From political views to your stance on social causes, use a bumper sticker to show your support. They aren't just for cars anymore. You can apply these stickers to any smooth, hard surface...even like a recreational vehicle. Use a simple font for readability. Make your words count. Fewer words mean a larger more noticeable message.

## About Bumper Stickers

<b>Material Options</b>	<input type="radio"/> White Polyolefin (J) <input type="radio"/> White Removable Polyolefin (JR)	<b>Production Time</b>	2 days
<b>1-3 Color Options</b>	Price includes one standard ink shown on page 2. For each additional ink, see charge in price grid. For PMS match, add additional \$50 (V) per PMS ink. FREE gloss lamination provides protection against moisture, scratching and outside elements. Matte lamination available upon request.	<b>Adhesive</b>	Permanent or removable
<b>Process Color</b>	FREE gloss lamination provides protection against moisture, scratching and outside elements. Matte lamination available upon request.	<b>Application</b>	Outdoor use
<b>Standard Features</b>	Bumper Stickers are finished as individual stickers. Rectangle Bumper Stickers have square corners and a convenient bend and peel tab. See page 62 for an example. 4" x 6" ovals and 5" circles are die cut for easy removal from liner.	<b>Bleed Available</b>	Yes
<b>Additional Options</b>	Adding sunscreen lamination protects your stickers and may extend the fade resistance of some inks, depending on environmental usage. See price grid for additional charge. The only inks that are naturally fade resistant are Black, Reflex Blue and Process Blue. Sunscreen lamination is recommended with all other inks.

Process Color inks are not fade-resistant.

## Tips for Designing Your Bumper Sticker

1. Most important tip: Simple images and text work best.
2. Use contrasting colors so your sticker will be read easily from a distance. Common pairs: red and green, blue and orange, yellow and purple.
3. Choose an easy-to-read font style, but make sure it complements your branding.
4. Limit the number of words you use and make them impactful.
5. Once you have finalized your design, test it. Print it out and take several steps back, make sure you can still read it, and remember your audience will only have seconds to read it.

# TECH DECALS

3" x 5 1/2" Die 11518 - White Window Lite (WW) - Process Color

3" x 5 1/2" Die 11518 - White Window Lite (WW) - Process Color

3" x 5 1/2" Die 11518 - White Window Lite (WW) - Process Color

These security stocks break apart or leave a "VOID" message on the surface when they have been removed. Available in Silver Void or White Destructible stocks.

# FASTURN® FREEFORM™ LASER CUT STICKER SHEETS

## Shop by Shape

Deliver multiple messages on one sticker sheet that is fun and interactive for all ages! Optimize printing by combining different sizes and shapes of labels on one sheet. Create promotional handouts for medical facilities, car dealerships, financial institutions, manufacturing, restaurants, schools, and public safety. Sticker sheets are an option when a product requires multiple labels of different sizes.

About FasTurn® freeform™ Laser Cut Sticker Sheets			
Material Options	freeform™ stocks shown on pages 37-38	Production Time	2 days with a layered art file with cut path
Standard Features	Each project is quoted individually. Price is based on sheet size not on the number of stickers. Provide a layered art file with a die line/cut path with your order to avoid set-up fees. Ask for assistance on how to create your cut path/die line.	Adhesive	Permanent except for AS, BF (which may become permanent over time).

Additional Options	We can help create cut paths. Art charges start at \$25.00 (Z) and may increase production time.	Application	Dependent on stock chosen
--------------------	--	-------------	---------------------------

## Add your logo to one of our pre-designed sticker sheets.

Ask us about our library of stock sticker sheets. Just add your logo to create a simple promotional piece. Choose from dentist, police officer, construction, space, firefighter, sports, emojis, education, humane society, My Plate, and more.

Expand your creative options with laser cutting technology. Use freeform™ to create labels in any shape with no die charges and low quantities. Ideal for logos, prototyping, seasonal products, events and more.

# OUTDOOR REFLECTIVE LABELS

Shop by Use

A durable label that is used to inform and warn on outdoor surfaces that will reflect light to easily be seen during the night and day. Used for safety decals, warning/security stickers, hard hat stickers and parking permits.

Retro-reflective stock is great for high visibility in lowlight, dark conditions, or poor weather conditions.

## About Outdoor Reflective Labels

### Material Options

Reflective Polyester (SB) - Stock appears slightly gray in color.

### Production Time

3 days

### 1-3 Color Options

Price includes one standard ink shown on page 2. For each additional ink, see charge in price grid. For PMS match, add additional \$50 (V) per PMS ink. FREE gloss lamination provides protection against moisture, scratching and outside elements. Matte lamination available upon request. Note: Your imprint will block out the reflectivity of the stock in that area.

### Adhesive

Permanent

### Standard Features

Labels are provided on rolls. Rectangle and square labels have rounded corners with a 0.125" (1/8") radius.

### Application

Outdoor use

### Additional Options

Adding sunscreen lamination protects your stickers and may extend the fade resistance of some inks, depending on environmental usage. Can be used in applications requiring long-range scannable barcodes. Static barcodes are no additional charge. If the barcode is a different color than the rest of the imprint, additional ink charge applies, see page 59. For consecutive number and bar codes, see pages 58-59. The only inks that are naturally fade resistant are Black, Reflex Blue and Process Blue. Sunscreen lamination is recommended with all other inks. If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.

### Individual Cut Labels

Look for Additional charge \$37 (V) per order. Minimum size is 2" x 2".

### Bleed Available

Yes

## 1 Color Outdoor Reflective Label Pricing

## About Outdoor Rectangle & Square Labels

### Material Options

### Removable

### Production Time

2 days

### 1-3 Color Options

Price includes one standard ink shown on page 2. For each additional ink, see charge in price grid. For PMS match, add additional \$50 (V) per PMS ink.

### Adhesive

Permanent or removable

### Process Color

Process Color inks are not fade resistant.

### Application

Outdoor use

### Standard Features

Labels are finished on rolls. Rectangle and square labels have rounded corners with a 0.125" (1/8") radius. FREE gloss lamination provides protection against moisture, scratching and outside elements. Matte lamination available upon request. White back-up is suggested on clear stocks.

### Individual Cut Labels

Look for Additional charge \$37 (V) per order. Minimum size is 2" x 2".

### Additional Options

Adding sunscreen lamination protects your labels and may extend the fade resistance of some inks, depending on environmental usage. The only inks that are naturally fade resistant are Black, Reflex Blue and Process Blue. Sunscreen lamination is recommended with all other inks. If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.

### Bleed Available

4" x 4" - White Polyolefin (J) - Black Ink, Clear Lamination

3" x 11 1/2" - White Polyolefin Removable (JR) - Process Color, Sunscreen Lamination

# OUTDOOR SQUARE CUT LABELS

Shop by Use

When you have specific square dimensions in mind, choose our Outdoor Square Cut labels. This durable label can withstand the outdoor elements.

## About Outdoor Square Cut Labels

### Material Options

### Production Time

2 days

<b>1-3 Color Options</b>	Price includes one standard ink shown on page 2. For each additional ink, see charge in price grid. For PMS match, add additional \$50 (V) per PMS ink.	<b>Adhesive</b>	Permanent or removable
<b>Process Color</b>	Process Color inks are not fade resistant.	<b>Application</b>	Outdoor use
<b>Standard Features</b>	Labels are finished on rolls. FREE gloss lamination provides protection against moisture, scratching and outside elements. Matte lamination available upon request. Recommended if you plan to write on the labels. White back-up is suggested on clear stocks. Artwork and copy should be 1/8" from all edges.	<b>Individual Cut Labels</b>	Additional charge \$37 (V) per order. Minimum size is 2" x 2".
<b>Additional Options</b>	Adding sunscreen lamination protects your labels and may extend the fade resistance of some inks, depending on environmental usage. See price grid for additional charge. The only inks that are naturally fade resistant are Black, Reflex Blue and Process Blue. Sunscreen lamination is recommended with all other inks. If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.	<b>Bleed Available</b>	Please call for a quote.

## Outdoor Square Cut Label Sizes

To calculate square inches, multiply label width by height. Minimum size square cut label is 0.25" x 0.625" (Width must be a minimum of 0.625").

# REPOSITIONABLE WINDOW DECALS

Shop by Use

Maximize the messaging space on your windows with repositionable window decals to communicate your brand and market events as well as showing store hours, promotions, services and support for causes and memberships. Our window decal material can be removed and positioned in a new location without losing its cling.

2" x 2" Die 202 - White Window Lite (WW) - Process Color, Sunscreen Lamination

3" x 4" Die 1212 - White Window Lite (WW) - Process Color, Sunscreen Lamination

3 3/4" x 7 1/2" Die 1227 - Clear Window Lite (WC) - Process Color + White Back-up, Clear Lamination

## About Repositionable Window Decals

### Material Options

WW  
White Window Lite

WC  
Clear Window Lite

\* For Clear Window Lite Stock, please indicate on your order if copy will be read from the inside or outside of the window.

### Production Time

2-3 days

### 1-3 Color Options

Price includes one standard ink shown on page 2. Additional ink charges shown on price grid. For PMS match, add additional \$50 (V) per PMS ink. FREE gloss lamination provides protection against moisture, scratching and outside elements. Matte lamination is available, if requested (recommended if you plan to write on the decal).

### Adhesive

Removable

### Process Color

FREE gloss lamination provides protection against moisture and scratching. Matte lamination is available, if requested (recommended if you plan to write on the decal).

### Application

Indoor and outdoor use

### Standard Features

Labels are provided on rolls. Square corner rectangles come standard as individuals. Rectangle and square labels have rounded corners with a 0.125" (1/8") radius unless otherwise noted. Our window decals have a special adhesive that allows you to remove and reposition multiple times on a clean surface and leaves no residue. Free white ink back-up applied on Clear Window Lite unless indicated otherwise.

### Individual Cut Labels

Look for  Additional charge \$37 (V) per order. Minimum size is 2" x 2".

### Additional Options

Please indicate if decal will be read from the inside or outside of a window. Backwards copy available only on Clear Window Lite stock (WC). Adding sunscreen lamination protects your decals and may extend the fade resistance of some inks, depending on environment and usage. If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.

### Bleed Available

Yes

# PINFED LABELS

## Shop by Use

Use pinfed labels with your computer and dot matrix or continuous feed printer. Labels fold easily into an organized fanfold stack. Perforation allows for a clear tear on the detachable label after each one is used. Tractor holes on each side keep labels aligned in your printer and prevent jams. Economical option for large print jobs.

Use our die cut laser sheet labels for your next big project. Chose white or a standard fluorescent color to bring attention to your label. Share your artwork to have labels printed, or print them on your own laser printer. Laser Sheets feature permanent acrylic adhesive which is resistant to high temperatures so it won't damage printers. Look for the (🖨️) icon to see which sheets are compatible with popular label software programs.

Jump into these trendy popular flexible pouches the easy way with Pouchables™. Choose a blank stock pouch and personalize it with your custom label. Make an impressive impact with a vivid full color label or just be subtle with one of our standard imprint colors. Fill with health and beauty products, jewelry, potpourri, wedding favors, snacks, baking mix, and more. Perfect for when you're just getting started and your quantity needs are small. Use a combination of labels for maximum impact (front, back, burst). Ideal for short run batches and seasonal varieties.

## About Pouchables™

**Pouch Material Options** Flat: Clear, Kraft w/Clear Front  
Stand Up: Clear, White Gloss, White Matte, Kraft, Kraft w/Window

**Production Time** 2 days

**Standard Features** All pouches come with a press to seal zipper and tear notches.  
Lay Flat pouches include a hang hole.  
All pouches are FDA and USDA compliant.  
Pouches must be combined with a custom label order in the same quantity.  
Labels are shipped with pouches but will not be affixed.

**Certification**

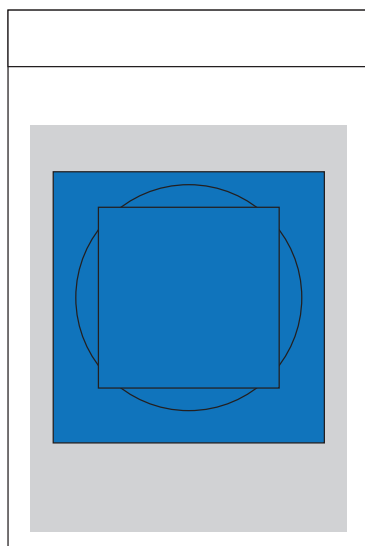

**Minimum Order Quantity** When ordering process color labels, minimum order quantity is 100.  
Standard 1-3 Color label minimum order is 250.

Example of a pouch showing usable space (in gray) and how a few different sizes will fill the front of the pouch.

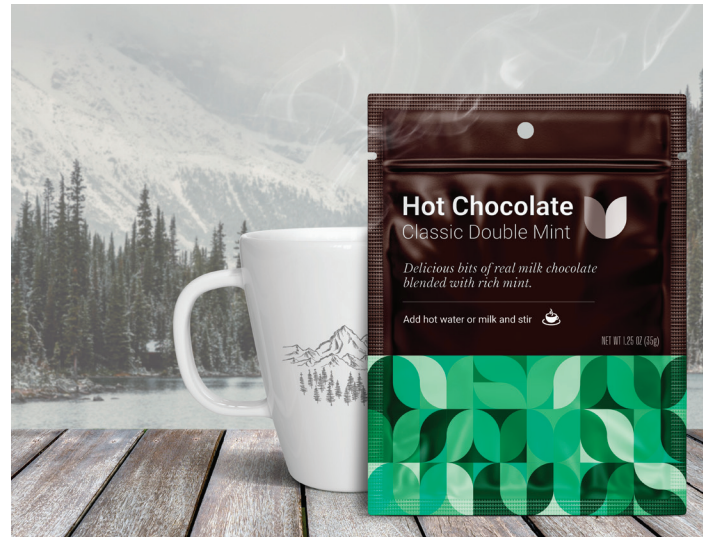

## How to choose your custom label size and order Pouchables™

- Once you have selected your pouch size above, reference the amount of usable space to help determine which labels will fit nicely on your pouch.
- Then determine the label (or labels) you would like to customize. We recommend starting your search with our Fasturn® Most Popular Labels on page 5. They offer a broad assortment with our best pricing and fastest delivery. Our freefrom™ labels on page 37 are laser cut so you can create a label with a unique shape. Note: You can choose to customize any of our labels to add to your pouch.
- Place your order for your pouches and labels together. Pouches are not sold separately.
- Receive your order and apply your labels. Label application instructions will be included with your order.

3 1/4" x 4 1/2" Lay Flat Pouch. Clear, Process Color

4" x 6" Lay Flat Pouch. White, Process Color

8 1/8" x 10" x 3 1/2" Stand Up Pouch. White, Process Color

6 3/4" x 9 3/4" x 2 1/2" Stand Up Pouch. White, Process Color

6 1/4" x 6" x 2" Stand Up Pouch. White, Process Color

6 3/4" x 9 3/4" x 2 1/2" Stand Up Pouch. Metallized, Process Color

Flexible packaging combines technology and innovation. It adds value and marketability to both food and non-food products. Strong barrier protection and an airtight seal extends shelf life and increases food safety. For consumers, flexible packaging is portable, easy to open, and re-sealable. Decorate your pouch with eye catching graphics from edge to edge including the gusset area on Stand Up pouches.

## About Flexible Packaging

### Pouch Barrier Film Options

Clear— PET/Clear PE. Overall thickness: 89 microns, 3.5mil. High barrier.  
White— PET/White PE. Overall thickness: 89 microns, 3.5mil. High barrier.  
Metallized— PET/MET PET/PE. Overall thickness: 102 microns, 4mil. Ultra-high barrier.

**Production Time** 15 business days from proof approval

### Lamination Options

Gloss—30 microns. Best in class for scuff resistance, durability and shine  
Matte—27 microns. Cost-effective matte, heat sealable

### Certification

### Process Color

Pouches can be printed from edge to edge on the front and back. Gusset printing is also available, but you will want to ensure that your artwork is set up in a way that it does not roll to the front or back if the barrier film shifts slightly during printing. Design templates are available so you can create your own artwork.

### Styles

Stand Up Pouch: Bottom gusset allows package to stand on its own. Can hold heavier contents. Optional hang hole and press-to-close zipper.  
Lay Flat Pouch: Sealed on 3 sides. Optional hang hole and press-to-close zipper. Pouch can lay on a flat surface or hang on a retail peg.

### Standard Features

All pouches are FDA compliant.  
All pouches have tear notches for easy opening.  
Capacity varies by contents, i.e., the same size pouch can hold more sugar than cookies.

### Additional Options

Add a 1/4" hang hole or press-to-close zipper.  
Utilize special print techniques like Mosaic or Color-Logic®.  
Output different versions with variable data or images.  
Create a window to show off your product. Just knock out that area in your artwork.  
Variable printing, consecutive numbering, and barcoding available.  
If you do your own converting, call for a quote on printed rolled stock.

## Flexible Packaging Sizes

Size (W x H x G)	Item #	Style	Capacity	Price
4 1/4" x 6" x 2" Gusset	G2	Stand Up	3.6 —5.2 oz.	Pricing varies by material and finish choices. Please call for a quote.
6 1/4" x 6" x 2" Gusset	G3	Stand Up	12—16.5 oz.	
6 3/4" x 9 3/4" x 2 1/2" Gusset	G4	Stand Up	21.5—29.6 oz.	
8 1/8" x 10" x 3 1/2" Gusset	G1	Stand Up	31—55 oz.	
Size (W x H)	Item #	Style	Capacity	
3 1/4" x 4 1/2"	L1	Lay Flat	1—1.5 oz.	
4" x 6"	L2	Lay Flat	3.5—4.5 oz.	

## Did you know?

We print flexible packaging in quantities from 500 to over 50,000!  
Call us to discuss your project.

**CONVENIENCE IS KEY.** Your package can be used and re-used with the re-sealable closure and takes up less space when stored in your pantry.

**COST EFFICIENT** lightweight package is easier and more affordable to transport, volumes can be increased, and is less likely to be damaged during the shipping process.

Flexible packaging is a growing marketing and forecasted to grow at an annual average rate of 4.4%.

Flexible packaging is expected to grow to \$24 Billion by 2024.

# VARIABLE PRINTING/CONSECUTIVE NUMBERING

## Shop by Use

Customize each label with a unique message, promotional code or number sequence. Have the ability to change text, images, barcodes, numbering, colors or a combination of these from label to label in the same spot to personalize or show data.

2" Die 440 - White Gloss (A) - Process Color

2" x 2" Die 202 - Clear Window Lite (WC) - Reflex Blue and White

## About Variable Printing/Consecutive Numbering

**Material/Ink Options** See page 2 for indoor stocks or page 41 for outdoor stocks.

**Production Time** Starts at 2 days and varies depending on specs. Consecutive numbering = 2-3 days. Call for production time on variable printing.

**Standard Features** Most labels are finished on rolls.

**Adhesive** Dependent on stock chosen

**Additional Options** Call for pricing for non-consecutive numbered labels. If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.

**Application** Dependent on stock chosen

**Individual Cut Labels** Most labels can be individually cut. Additional Charge \$37 (V) per order. Minimum size is 2" x 2."

**Bleed Available** Yes

## Ordering Variable Printing/Consecutive Numbering

### Please provide the following:

- A composite proof of the label
- All art or images that will be on the labels
- An Excel spreadsheet of the variable information
- The first row of the spreadsheet should describe each column of information

### Types of Variable Labels

### Variable Data

Unique numbering patterns, sequence of letters & numbers and certain barcodes are used to identify product lines, provide custom log-ins and track work-in-progress, goods received and promotions.

### Personalization

Create personalized messages by highlighting names, purchasing habits or address information on targeted promotions and marketing campaigns.

### 1 Years Accident Free

## Consecutive Numbering Upcharge

100	250	500	1,000	2,000	3,000	5,000	10,000	15,000	20,000	25,000
\$97.00	\$97.00	\$97.00	\$97.00	\$105.00	\$112.00	\$127.50	\$165.50	\$204.00	\$242.00	\$280.00

(V) Prices effective January 1, 2023. Prices subject to change.

Stick and scan! Easily spread your message from print to digital. QR codes connect consumers digitally to more information about the product or complementary items to purchase. Barcodes create a static or variable code for a product or asset label to track and keep inventory known.

1" x 2" Die 155 - White Polyolefin (J) - Black Ink

3" x 5" Square Cut Label - White Matte (G) - Process Color

1 1/2" x 1 1/2" Square Cut Label - White Matte (G) - Black Ink

3" x 3" Die 203 - White Polyolefin Removable (JR) - Black Ink, Clear Lamination

## About Barcode and QR Code Labels

<b>Material Options</b>	White stock is highly recommended. See page 2 for indoor stocks and page 41 for outdoor stocks. Clear stocks may be used depending on the color of the application surface. Red Fluorescent, Gold, Silver, White EDP and Laser Stocks are not recommended due to possible scanning problems.	<b>Production Time</b>	Call for production time
<b>1-3 Color Options</b>	Black or dark inks are recommended. UV varnish is available, price as an additional ink. For PMS match, add additional \$50 (V) per PMS ink.	<b>Adhesive</b>	Dependent on stock chosen
<b>Standard Features</b>	Static barcodes available at no additional charge. If the barcode is a different color than the rest of the imprint, additional ink charge applies.	<b>Application</b>	Dependent on stock chosen
<b>Additional Options</b>	Black or dark inks are recommended. UV varnish is available, price as an additional ink. If specific # of labels/roll, core size or unwind is needed, must specify at time of order. Additional charges may apply.	<b>Individual Cut Labels</b>	Look for  Additional charge \$37 (V) per order. Minimum size is 2" x 2".

## Ordering Barcode and QR Code Labels

- Select type of code, such as Code 39.
- Indicate characters to encode.
- Choose size (under 3/8" height not recommended)
- For consecutive or variable barcodes, please supply data file. Call for pricing.

TYPES OF BARCODES	SYMBOL	CHARACTER SET	LENGTH	APPLICATIONS/COMMENTS
<b>Code 39</b> <i>variable barcoding available</i>	 0123456ABC	Uppercase letters A-Z; Numbers 0-9 Space -, \$ ? + %	Varies	Widely used; excellent for many applications
<b>Code 128</b> <i>variable barcoding available</i>	 01234567890	All ASCII* characters and control codes	Varies	Widely used; excellent for many applications
<b>GS1-128</b> <i>formerly UCC/EAN-128</i>	 (01)123456789	All ASCII* characters and control codes	Varies	Subset of Code 128 which defines data formats for commerce
<b>EAN-13</b>	 0123456789012	Numbers Only	13+ Check Digit +2 optional +5 optional	Most widely used retail product marking worldwide
<b>EAN-8</b>	 01234565	Numbers Only	7+ Check Digit	Retail product marking worldwide; compressed code for products with limited label space
<b>UPC-A</b>	 012345678905	Numbers Only	11+ Check Digit +2 optional +5 optional	Retail product marking in USA and Canada
<b>UPC-E</b>	 01234565	Numbers Only	7 + Check Digit	Retail product marking in USA and Canada; compressed code for products with limited label space
<b>Interleaved 2 of 5</b> <i>variable barcoding available</i>	 1234567890	Numbers Only	Varies	Very compact; encodes digits in pairs so total length must be an even number of digits
<b>QR Code</b>		All ASCII* Characters	Varies	2D barcode

\*ASCII (American Standard Code for Information Interchange) is a character-encoding system. The codes represent data (numbers or text) read by computers and other devices.

# GENERAL INFORMATION

STOCK	STOCK CODE	DESCRIPTION	INDOOR/ OUTDOOR	APPLICATION & SERVICE TEMP
<b>White Gloss</b> <b>Yellow Gloss</b> <b>Ivory Gloss</b> <b>Black Gloss</b> <b>Forest Green Gloss</b>	<b>A</b> <b>B</b> <b>BC</b> <b>O</b> <b>P</b>	The glossy, smooth surface of this versatile stock makes the colors on the label shine. <ul style="list-style-type: none"> <li>Semi-gloss paper stock for high-quality detail reproduction</li> <li>Add foil stamping to your label to capture the eye of the consumer with extra shine</li> <li>Not recommended for write on additions to the label</li> </ul>	Indoor	-20°F min. -65°F to +200°F

STOCK	STOCK CODE	DESCRIPTION	INDOOR/ OUTDOOR	APPLICATION & SERVICE TEMP
<b>White EDP</b> <b>Yellow EDP</b> <b>Ivory EDP</b> <i>(Also known as DSX or Smudge Proof Tractor Feed)</i>	<b>H</b> <b>BV</b> <b>BD</b>	EDP stock is a high-speed option for electronic data processing labels. <ul style="list-style-type: none"> <li>• An uncoated, smudge-resistant stock allows for increased print image and toner adhesion</li> <li>• Meets high-speed requirements for data processing; pinfed and fanfold finishing available</li> <li>• A porous stock (not recommended for screens and fine details)</li> <li>• Also available with non-permanent adhesive</li> </ul>	Indoor	+25°F min. -40°F to +300°F
<b>Gold Foil</b> <b>Silver Foil</b>	<b>D</b> <b>E</b>	The shine and texture to this stock adds a prestigious quality to your labels. <ul style="list-style-type: none"> <li>• Foil paper stock with a high sheen</li> <li>• Visually appealing and elegant - great for embossing and foil stamping</li> <li>• Not recommended as a writing surface</li> </ul>	Indoor	-20°F min. -65°F to +160°F
<b>Gold Foil Dull</b> <b>Silver Foil Dull</b>	<b>AI</b> <b>AH</b>	A glamorous, yet subtle stock choice. <ul style="list-style-type: none"> <li>• Foil paper stock with a matte sheen</li> <li>• Great for embossing and foil stamping</li> </ul>	Indoor	-20°F min. -65°F to +180°F
(BOPP: Biaxially-Oriented Polypropylene) <b>White Film BOPP</b> <b>Clear Film BOPP</b>	<b>WB</b> <b>BJ</b>	When your space calls for more durability than paper, choose this versatile film option. <ul style="list-style-type: none"> <li>• High gloss film stock</li> <li>• Excellent for curved surface application</li> <li>• High tear resistance</li> <li>• Water, oil and moisture resistant</li> </ul>	Indoor	+23°F min. -20°F to +212°F
<b>Silver Film BOPP</b>	<b>KR</b>	<ul style="list-style-type: none"> <li>• Mirror-like reflectivity</li> </ul>	Indoor	+25°F min. -40°F to +175°F
<b>Clear Window Lite</b> <b>White Window Lite</b>	<b>WC</b> <b>WW</b>	Even though it's in the name, this stock is not just for windows! <ul style="list-style-type: none"> <li>• Great alternative to magnets and static cling</li> <li>• Repositionable</li> <li>• Clean and easy removal with no adhesive left behind</li> </ul>	Indoor and Outdoor	+35°F min. -40°F to +180°F
<b>Gold Polyester</b> <b>Gold Polyester Brushed</b> <b>Silver Polyester Brushed</b> <i>(Also known as Mylar)</i>	<b>U</b> <b>Z</b> <b>S</b>	<ul style="list-style-type: none"> <li>• Durable weather-resistant stock</li> <li>• Laminated for added protection and durability</li> </ul>	Indoor and Outdoor	+50°F min. -40°F to +302°F
<b>Silver Polyester</b> <b>Clear Polyester</b>	<b>X</b> <b>Y</b>	<ul style="list-style-type: none"> <li>• Durable weather-resistant stock</li> <li>• Laminated for added protection and durability</li> </ul>	Indoor and Outdoor	+25°F min. -40°F to +300°F
<b>White Polyolefin</b> <b>Yellow Polyolefin</b>	<b>J</b> <b>V</b>	This stock will allow labels to withstand harsh elements and rigorous applications. <ul style="list-style-type: none"> <li>• Flexible, weather-resistant film holds its shape nicely, similar to vinyl</li> <li>• Great for sheeted applications</li> <li>• Suitable for signage and bumper stickers</li> <li>• Laminated for added protection and durability</li> </ul>	Indoor and Outdoor	+10°F min. -40°F to +200°F
<b>White Polyolefin Removable</b>	<b>JR</b>	<ul style="list-style-type: none"> <li>• Same great features as White Polyolefin (above)</li> <li>• Removable adhesive will become permanent over time</li> </ul>	Indoor and Outdoor	+50°F min. -40°F to +250°F
<b>Reflective Polyester</b>	<b>SB</b>	<ul style="list-style-type: none"> <li>• Retro-reflective stock bounces light back to source</li> <li>• Long range scanning up to 45 feet away</li> <li>• Great for labeling warehouse racks, pallets, safety vehicles, warnings and permits</li> <li>• Imprint will block out reflectivity of stock in that area</li> </ul>	Indoor and Outdoor	+45°F min. -40°F to +300°F

## Label Adhesives

All labels featured in this catalog, with the exception of Window Lite, are provided with permanent adhesive and cannot be easily removed except with certain solvents. White Gloss Removable, White Laser Removable, White Matte Removable and White Polyolefin Removable will become permanent over time. These stocks do not remove well from paper.

## Label Application

For best results, labels should always be applied at room temperature to smooth, dry, clean, oil-free surfaces. Ink colors will appear transparent on clear stocks. If there is any question as to the proper application, please request samples to test at no charge.

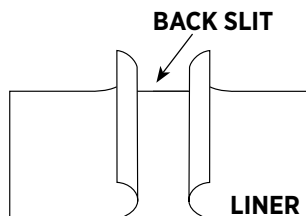

## Adhesive Side Printing

Adhesive side printing offers the option of printing on **BOTH** sides of the label, whether it's the same message or different ones. For example, a label on a clear bottle with a transparent liquid. The front of the label conveys the product's brand information, while the back of the label, viewable through the liquid contents, may serve to communicate ingredients and directions for use. No need for two separate labels! Efficiency at its finest. Not available on removable stock.

## Back Slit

A back slit speeds up the application process by providing quick release of the liner.

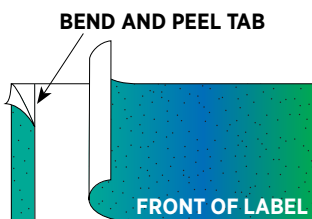

## Backwards Copy

The text or image is printed backwards, allowing the label to be applied on the inside of a window, yet readable from the outside. An option for the decal placement on windows, such as store fronts or car parking permits.

## Bend & Peel

A square cut label with a slit on one end for easier peeling and removal.

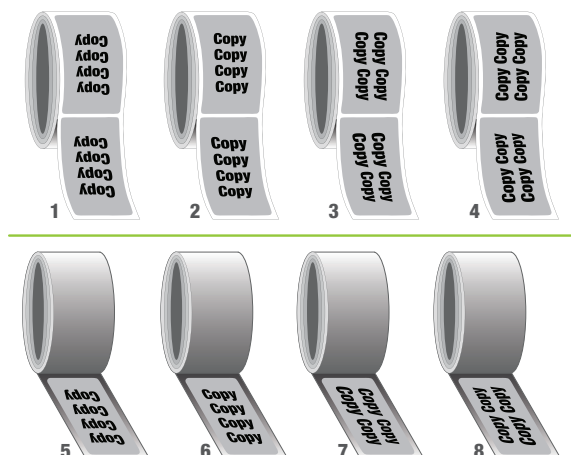

## Bleed

A bleed is a printed image that extends to the edge of the label for maximum printing coverage so there's no border or extra white space. Artwork must include a 1/16" extension on all sides.

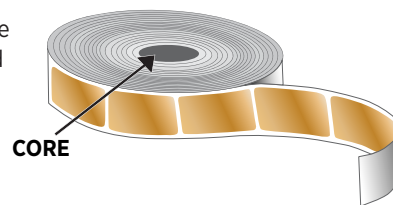

## Copy Position

Also known as the unwind; signifies which direction the copy comes off the roll. This is critical for machine applied labels.

## Core Size

Core size refers to the cardboard cylinder that the labels are wrapped around when finished on a roll. Cores come in 1" and 3" diameters, but additional sizes are available upon request.

## Draw / Repeat

Refers to the dimension from the top edge of one label to the top edge of the next label.

Length + Gap = Draw / Repeat

See Draw / Repeat diagram on Inside Back Cover.

## Embossing

Embossing involves pressing an image into paper so it is raised above the paper's surface. This raised, or embossed, image subtly stands out on the paperstock, and although ink or foil is not involved, it's an effective way to infuse some prestige into the design.

## Flood Coat

Flood coat is the process of applying ink over the entire label to change the color of the stock prior to printing the design.

## Foil Stamping

Foil stamping is the process of imprinting using foil, a die and pressure. The result? A metallic-colored impression that shimmers and shines and captures the eye.

## freeform™ - Laser Cut

Freeform™ uses a high-powered laser beam to cut material rather than using a traditional hard die. They can be laser cut into any shape you can think of such as cars, stars, fruits, animals, etc.

## Gap

The space between two labels; 1/8" is standard. See Draw / Repeat diagram on Inside Back Cover.

## High Capacity Rolls

When a large amount of labels is needed, a high capacity roll provides high quality and quantity on a single large roll of labels.

## Kiss Cut

Kiss cut is cutting a label so that the backing sheet remains intact but the sticker waste around the cut image is removed. What's left behind is a unique-shaped label on a larger backing sheet. No fumbling fingers when it comes time to peel off the backing!

## Lamination

- **Gloss Lamination** Our standard gloss lamination enhances appearance while adding a high-gloss sheen that provides weather-resistant protection for our outdoor stocks. Offers excellent acid, chemical and oil resistance.
- **Matte Lamination** Matte lamination provides a matte finish with a low-glare surface to enable electronic scanning. It's also the best laminate for handwriting information on your labels.
- **Sunscreen Lamination** Sunscreen lamination is a clear polyester film specifically formatted to protect the label by screening out harmful UV rays. Extends the fade resistance of some inks depending on the environment and usage and provides a high-gloss sheen.

## Liner Side Printing

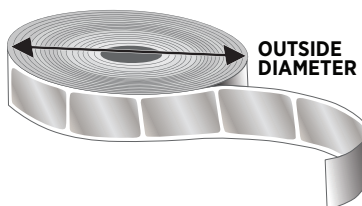

Also known as backside printing. Copy is printed on the liner of the label. Often used to offer coupons, share business address and hours, promote upcoming events or anything else you'd like to share with your customers.

## Matrix

The stock material surrounding a die cut label. Otherwise known as "what's left when you peel off all the labels".

## Outside Diameter

Refers to the measurement across the roll of labels at its widest point, including the core.

## Registration

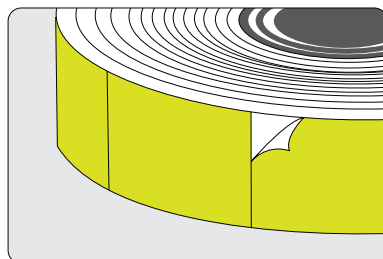

The arrangement of two or more printed images or colors in exact alignment with each other. Perfect registration results in a crisp, clean multi-colored image.

## Reverse

An image where the stock shows through as the imprint. As an example, a white label with black ink would appear as a black label with a white imprint.

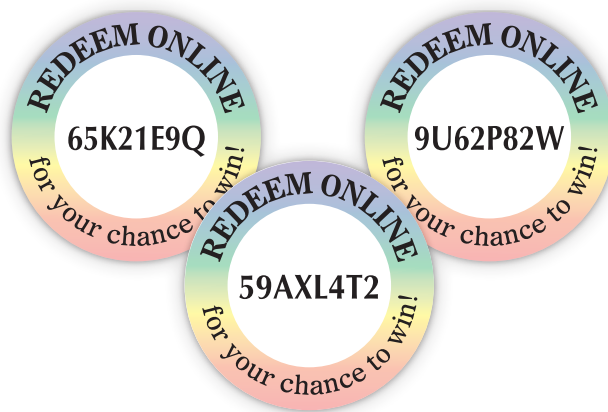

## Square Cut Labels

Also known as "Butt Cut," these labels have right angle corners. Each label butts up to the next one on the roll, with no gap of unused liner.

## Variable

Variable printing is a method in which text, graphics and images change from one label to the next, resulting in each label being unique.

## Varnish

A thin protective coating that is bonded and cured with ultraviolet light. Provides moisture protection but does not provide UV ray protection.

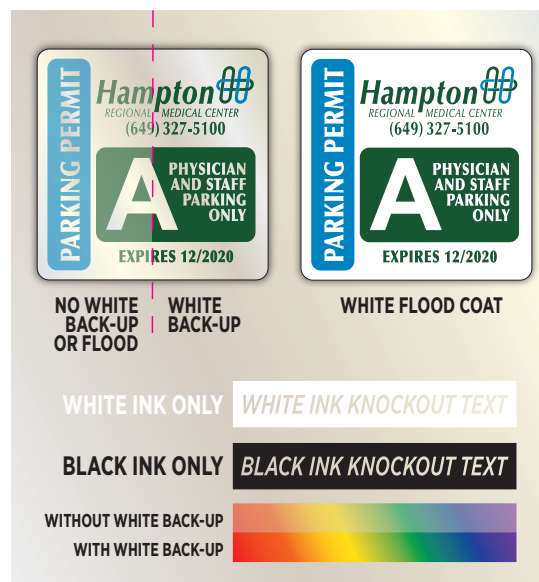

- **Gloss UV Varnish** Leaves a high gloss finish. Not available for matte stocks.
- **Matte UV Varnish** Leaves a no-glare subtle finish.

## White Back-Up

White back-up is the process of applying white ink directly behind the artwork to make it easier to read on clear stocks. See *diagram below*.

## White Flood Coat

The process of applying white ink across the entire label to make it easier to read on clear stocks, giving it the look of a white label.

## We accept art files created in the following applications:

- Acrobat® PDF\*
- Adobe® Photoshop®
- Adobe® Illustrator®
- Adobe® InDesign®

## We do not accept art files created in the following applications:

- Microsoft® PowerPoint®
- Microsoft® Word®
- Microsoft® Excel®
- Microsoft® Publisher®

\*Microsoft® Excel® files only accepted for variable data

We do not accept CAD or manufacturing drawings.

**Preferred file format is a print-ready PDF. For all artwork, a minimum of 300 DPI is required.**

### Artwork Submission

Send your order and art file(s) to us. Please reference your account number, company name or phone number in the subject line. Remember to note the size, stock, inks and quantity. Submit large artwork files easily via FTP by just compressing the file and upload.

### Bleeds and Borders

- All artwork with a bleed must include a  $\frac{1}{16}$ " extension on all sides to avoid additional charges.
- Artwork with borders should indicate if the border should print  $\frac{1}{16}$ " in from the edge of the label or bleed.

### Cancellations and Changes

Cancellation or changes on orders cannot be guaranteed, so check proof carefully before placing orders. A minimum fee of \$25.00 (V) will be charged for all cancellations or changes. Note that if the order has been printed, the full order value will be charged.

### Creating Your Files

When you're ready to place your order, follow these guidelines to ensure we receive your art files and for the best results:

- Create one item, sized correctly, per document.  
*For freeform™ laser cut labels, create a layered file that includes the cut path.*
- Make sure file(s) are colored correctly.
- Graphics and text should be sized at 100%.
- All supporting graphic file(s) used within your layout must be embedded with your layout file, placed at 100%.

### Order Refusal

Professionalism as a company is important to us, so we reserve the right to refuse to print any labels that we consider profane or immoral.

### Over-Runs

There will be no additional charge for over-runs.

### Photo and Art Authorization

Don't use copyrighted artwork without permission. To avoid legal trouble due to copyright infringement, submit an authorization form with your order.

### Print-Ready Artwork

Print-ready artwork is provided at 100% size, requires no typesetting and has a  $\frac{1}{8}$ " margin on all sides, including a bleed when needed. Please keep the following in mind when preparing print-ready artwork:

- Exact position of text and graphics should be indicated, or we will position using our best judgment.
- File(s) should be colored correctly.
- We have found that photocopies, facsimiles, low-resolution laser prints and pencil or ballpoint sketches don't provide a high enough degree of resolution to produce quality products. For this reason, we ask that you choose another method of providing your artwork.

### Proofs - 1st Proof Free

Proofs are available electronically, as well as by fax. **Please note that the proof needs to be requested when your order is submitted.**

#### Electronic Proofs:

- **SAME DAY** service if received by 12pm CT
- Adds 24-Hour to order production time.
- Additional proofs are \$18.00 (V) each.
- Please provide complete email address or fax number.
- Proof colors will vary by computer and/or printer.  
*(Electronic Proofs only)*
- Stock color will not be represented on the proof.
- Order production time begins after proof approval.

For viewing electronic proofs, please check the Adobe® Reader® or Acrobat® settings under "Edit"/"Preferences"/"Page Display" are as follows:

- Uncheck "Enhance thin lines"
- Set "Use Overprint Preview" to "Always"

### Reprints and Liability

We firmly stand behind our products, and because your complete satisfaction is our highest priority:

- We will gladly and promptly reprint label orders that have defective workmanship.
- We will reprint at no charge if we are at fault.
- Unfortunately, we cannot be held liable for damages that might arise from using our products, other than the replacement cost of such product.

### Reverses

We will reverse your copy free of charge; just indicate on your order what copy is reversed.

### Rights to Promotion

We're proud of the work we do. We reserve the right to use all products in our advertising and displays unless otherwise specified in writing at the time of order.

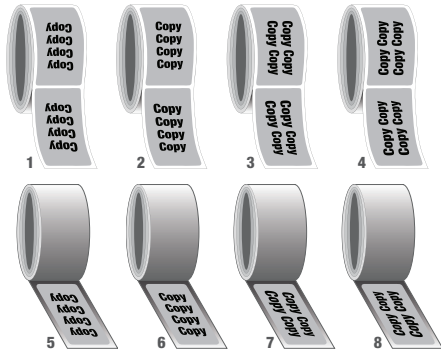

### Screens and Registration

- Screens are available with a 5%–95% tint.  
*(For example, 85% black is basically dark grey.)*
- Registration of color-to-color is within industry standards of  $\frac{1}{32}$ ".

## When ordering machine applied labels, here's what you need to know:

### 1. Copy Position

The copy position (or unwind) signifies which direction the copy comes off the roll; positions 5 through 8 are wound in. Please note horizontal vs. vertical.

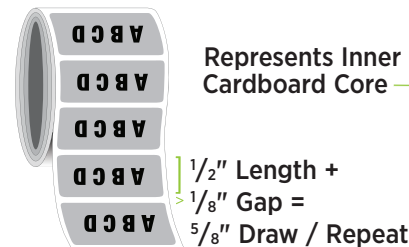

### 2. Draw/Repeat

The draw, or repeat, refers to the distance from the top edge of one label to the top edge of the next label. The length of the label plus the gap equals the repeat. Length + Gap = Draw / Repeat

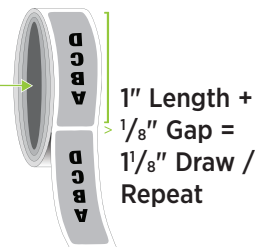

#### Short Draw

Example: 1" x 1/2" Label

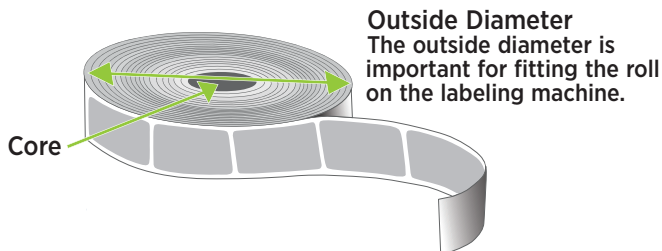

#### Long Draw

Example: 1/2" x 1" Label

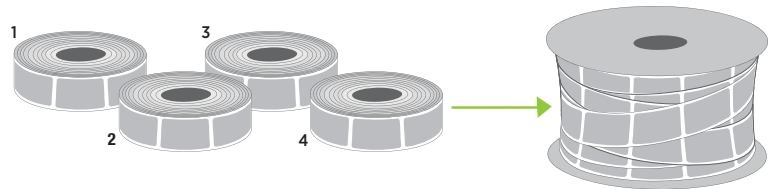

### 3. Core Information

Cores are available in two standard sizes, 1" and 3" in diameter. Cores must be flush with the edge of the roll. Please note the core size and the maximum outside diameter (OD) of the roll when ordering. Additional core sizes are available for an additional charge.

### 4. High Capacity Spooler

Have us spool your labels to cut down on machine stops and restarts to change over new rolls of labels. We can splice together label rolls to create one large roll of non-stop label application. Would you rather have four rolls of 15,000 labels which have to be changed at the completion of each run, or one continuous roll of 60,000 labels? This is what society would call a "no-brainer." If you need this service, give us a call!

## Questions to ask to ensure the right label for the right application

- 1. What is the label being applied to?** *Different surfaces may require specific stocks and/or adhesives.*
- 2. What will the label be exposed to?** *A label's environment like water, solvents, abrasives, and temperature can influence its performance so varnishes or laminations may be needed.*
- 3. What is the size?**
- 4. What is the quantity needed?**
- 5. What is the material and ink color(s)?**
- 6. Will the label be hand or machine applied?** *Core size, rewind direction, roll outside diameter, number of labels per roll, etc.*
- 7. Any special shipping or packaging requirements?** *Drop ship, shrink wrap, quantity per box, outer box labels*
